Dear business partners,

We wish to inform you that Shriro and Vitec have come to an agreement in principle that Shriro will hand over the distribution of Gitzo products for Hong Kong, China and Macau during the 2nd half of 2010 to Manfrotto Distribution, a newly formed company within the Vitec Group which owns the Gitzo brand. This decision was made in line with the global strategy of the Vitec Group and in accordance with the contractual terms between Shriro and the Vitec Group.

Shriro and Vitec will work together to ensure uninterrupted and reliable supply and customer service at any time before and after the official handover. Further details of the new distribution structure will be announced by the Vitec Group at the appropriate time.

Shriro will continue to sell Manfrotto lighting products and pro level Gitzo products to professional end users.

Both parties wish to express their gratitude, both mutually and to all trade partners involved, for the long years of successful cooperation under the current structure.
